Farm Enterprise Productivity Analysis

Farm Enterprise Productivity Analysis (FEPA) – Learn how to use these three computer programs BUDSYS, PRODSYS and COW-CALF PLUS to build enterprise budgets and perform production feasibility analysis.

This is a one-day training (10am to 4pm) with on-site lunch provided by the Department of Applied Economics and Statistics. This training has been designed for any county agent or extension specialist with farm enterprise responsibilities. Each county agent is welcome to invite farmers for this workshop that has a total capacity for only 25 participants. First come, first serve. Laptops will be available to all participants. But, participants are encouraged to bring their own laptops. Microsoft Excel experience required.

Date: 11/06/2006

Time: 10am to 4pm

Location : Room E-145 Poole Agricultural Center
Clemson University

Instructor: Wilder Ferreira
